more traffic to rail and improve timely delivery of goods:—

1. No general increase in freight rates was announced in the Railway Budget 1998-99.
2. Taper of Freight rates for Coal, Cement and Iron & Steel were modified to reduce freight burden on long lead traffic.
3. The freight classification of Gypsum, Limestone and Dolomite were down graded by one step to give relief of approx. 4 per cent in freight rates.
4. A scheme of volume discount has been introduced for Cement, Clinker, Sponge Iron, Iron and Steel and Iron Ore traffic during the second half of the current year to attract additional traffic to rail.
5. Concerted efforts are being made to reduce transit time and terminal detentions. Some of these include reduction in wagon turn round to 8 days in 1997-98 from 8.5 days in 1996-97, introduction of long distance closed circuit rake movement which does not require examination before 4500 kms journey, induction of diesel and electric locomotive with higher horse power and lesser maintenance requirements and reduction of roadside detachment of wagons.
